ABOUT ME

I'm 5th semester computer science student with strong interest on web development and Artificial Intelligence. Skilled in building responsive website using HTML, CSS and Javascript, I'm also familiar to SQL database for data management. I had experience on developing an AI-based cheating detection system using Python, Streamlit, and computer vision techniques. I'm eager to keep learning, contribute to real-world projects, and grow into a professional developer.

EDUCATION

Bachelor of Computer Science

Sep 2023 - Present

3.17 GPA

Universitas Bina Nusantara

Relevant Coursework : Algorithm and Programming, Data Structures, Software Engineering, Database Technology, Web Programming

PROJECT

Diamond Cut Motors

Feb 2023 - Jun 2023

- Develop a simple responsive website for car showroom
- Implemented User-friendly interface
- Implemented Javascript for image carousel, form handling and hover effect

Implementation Artificial Intelligence on Cheating Detection for Online Examinations

Oct 2024 - Jun 2025

- Design using streamlit for interface and real-time monitoring
 - Implement real-time gaze detection , eye movement and head movement to identify suspicious behavior during examination
 - Built a log which capture screenshot/video during examination when user is away from the screen for over 10 seconds
-

TECHNICAL SKILLS

- Programming Languages: Javascript, Java, C, Python
- Markup & Styling : HTML, CSS
- Frameworks and Libraries: React, Laravel
- Databases: MySQL, PostgreSQL
- Tools and Platforms: Git, GitHub
- AI: TensorFlow

Certificate

- Code Generation and Optimization Using IBM Granite

Sep 2025

- The Complete Full-Stack Web Development Bootcamp

Nov 2025
